

CYBERSECURITY CAPABILITY STATEMENT

Mission-Focused Assessment, Compliance & Advisory Services

PABULUM-ROTHE JV LLC (PRJV) | SDVOSB Mentor-Protégé Joint Venture

Protégé: Pabulum Consulting LLC | Mentor: Rothe Development, Inc.

PRJV delivers mission-focused cybersecurity assessment, compliance, and advisory services for federal agencies, Department of Defense programs, NASA and commercial space customers, critical infrastructure, healthcare organizations, and commercial enterprises. Through the SBA Mentor-Protégé Program, PRJV combines Pabulum's SDVOSB positioning with Rothe's mature quality systems, contract-delivery infrastructure, and mission-critical experience.

1 WHY PRJV

SDVOSB Access + Mentor-Backed Delivery Combines set-aside access and veteran-owned market strength with experienced mentor-backed delivery capability.	Mission-Critical Heritage Leverages Rothe's longstanding support to NASA, defense, and other high-consequence environments where operational reliability matters.	Faster Time to Value Brings an integrated model for assessments, compliance, remediation planning, and advisory support—designed to move clients from findings to action.
------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

SBA MENTOR-PROTÉGÉ ADVANTAGE

Mentor-derived qualifications, infrastructure, and delivery assets reflected in this capability statement are available to the joint venture through the SBA Mentor-Protégé Program framework and the PRJV delivery model.

2 CORE CAPABILITIES

Cybersecurity Risk Assessments Enterprise and program-level security posture assessments, maturity evaluations, risk registers, and executive reporting.	Compliance & Regulatory Readiness Gap analysis and control validation for CMMC 2.0, NIST 800-171, NIST 800-53, RMF, FedRAMP, HIPAA, PCI-DSS, SOC 2, and ISO 27001.	Vulnerability & Security Posture Vulnerability assessments, configuration reviews, cloud security reviews, architecture analysis, and remediation planning.
Third-Party & Supply Chain Risk Vendor risk assessments, subcontractor reviews, cyber supply chain risk management, and risk mitigation recommendations.	Cybersecurity as a Service vCISO support, security awareness training, annual compliance retainers, incident response retainer, and managed vulnerability scanning.	Policy, Program & Insurance Readiness Security policies, SSP and control documentation, remediation roadmaps, and cyber insurance readiness support.
		OMB Circular A-130 Integration For federal contractors and agencies, align insurance readiness and security posture obligations under OMB Circular A-130 with NIST 800-53-based control expectations to reduce duplication and strengthen both cyber posture and insurability.

3 SUPPORTED FRAMEWORKS & STANDARDS

CMMC 2.0
