

Operations Support Lead Analyst (Program Manager) Location: Fort Meade, MD

Security Clearance: Current DOD Top Secret / SCI and CI Poly

The U.S. Army Intelligence and Security Command (INSCOM) has awarded an Indefinite Delivery, Indefinite Quantity (IDIQ) contract to provide service and support to the command and their subordinate elements worldwide. PABULUM Consulting, LLC is seeking highly qualified **Operations Support Lead Analyst (Program Manager)** for the United States Army Intelligence and Security Command (INSCOM) Global Intelligence (GI), Army Operations Group (AOG) Mission effort.

Responsibilities:

The Program Manager will have full authority to act for PABULUM Consulting, LLC on all contract matters relating to daily operation of this task order. The Program Manager will also perform in providing services to assist the U.S. Army Intelligence and Security Command (INSCOM)'s mission to conduct human intelligence (HUMINT) operations and provide expertise in support of ground component priority intelligence requirements using a full spectrum of human intelligence collection methods.

Education:

- MA or MS degree in Business, Computer Science, Engineering, Physics, or Mathematics

Certifications:

Certification as Program Management Professional (PMP) or Change Management Advanced Practitioner (CMAP)

Specialized Experience:

- 15 years successful managerial experience on US Army or DoD programs and projects that provided expert intelligence analysis services
- Expert knowledge of the intelligence cycle and the analytical process that acts on collection to produce information for intelligence databases and products
- 5 years of experience with data analysis in the DoD or IC
- Expert knowledge of Army structure and defense level intelligence operations: intelligence collection, fusion, analysis, production, and dissemination for intelligence databases and products.
- Expert knowledge and experience with intelligence automated systems, especially imagery analysis, signals intelligence and exploitation tools and libraries
- Detailed knowledge of DIA, NSA, CIA, DEA, FBI, and Departments of Treasury and State programs and products
- 10 years knowledge and experience with intelligence operations and in assisting with drafting expert assessments across operations priorities on behalf of the stakeholder, with specialized experience in:
 - Prior collection management experience in any discipline;
 - or Knowledge of HUMINT operations;
 - or Experience writing analytic products following IC directives and guidance.
- Knowledge of intelligence oversight and security guidelines

- Excellent written and oral communication skills
- Excellent analytical skills
- Deep understanding of Army HUMINT Operations, AOG, and its missions and capabilities
- Significant experience in strategic communications, strategic planning, senior leader coaching, organizational design, project management, process improvement and change management
- Detailed knowledge of SharePoint
- Expert capabilities to research, create, develop, and deliver professional briefings, multimedia presentations, and written reports.
- Ability to produce reports incorporating text and graphics to convey complex concepts to senior policy makers
- Experience with assessments, enterprise data integration, governance, and metrics, including the application of metadata management techniques and data modeling and design
- Experience with the application of quantitative and qualitative analytic methods, including the design, development, and management of statistical models and enterprise-wide surveys
- Working knowledge to apply state-of-the-art intelligence analysis tools
- Expert ability to manage research and coordination for projects.
- Expert ability to instruct and interact with small groups on data and information requirements and coordination tasks.
- Specialized training from any intelligence collection and analysis school or certification
- Superior understanding of DoD Intelligence processes, activities, standards, and available analytic tools
- Knowledge of and experience in planning and executing technical studies and reports for computer systems and computer networks

Salary: Negotiable Based on Experience
